Psychological Evaluations

ABOUT STONEBRIDGE

Stonebridge Behavioral Health is available to provide psychological evaluations of adults and children who are clients of DFPS and also works with children in the care of ORR.

BENEFITS

For adult clients, our services help them meet the requirements of their service plans, and the comprehensive report provides important information to DFPS Caseworkers to aid them in their efforts at establishing permanency for children.

For children, whether placed in a foster home, kinship home, or elsewhere, a thorough psychological evaluation can provide important information about a child's emotional well-being and helps identify the cause of behavioral difficulties. Our comprehensive evaluations also provide information about cognitive and academic functioning to assist schools in identifying children who require academic accommodation. CANS screenings are also available to enable agencies to remain in compliance with DFPS Standards.

Stonebridge is able to schedule evaluations quickly and return reports in a timely manner. Our evaluations help you focus more effectively on the needs of children and families working with the Texas Department of Family and Protective Services and ORR.

LOCATIONS

Stonebridge provides its services in two offices and on-site in DFPS locations, child placing agencies, temporary shelters and residential treatment centers.

PAYMENT FOR SERVICES

Stonebridge providers are all credentialed with Superior STAR and other local Medicaid MCO's. For adults, a DFPS Form 2054 is needed with six testing units approved. We also need a copy of the Removal Affidavit, if available. ORR Services require a TAR Form authorizing a psychological evaluation.

HOW TO SCHEDULE

Just call 866.720.6792 and ask for Nancy. You may also email her at nherrera@stonebridgealliance.com. For more information about Stonebridge and the services we provide please call us or visit our website: www.stonebridgealliance.com.

Contact one of our clinicians for more information:
